

# Privilege Rooms (Kailash Parbat)

The client has an Invite-only Travel Portal for a niche clientele to cater to their luxurious lifestyle with a melange of chain hotels, resorts, and airline travel offerings.

## Client Description

Starting as a roadside Halwai, our client has developed into one of the most beloved Indian restaurant chains worldwide. They have also launched a new travel booking portal for its niche clientele. The portal caters to their Invite-only clients who can book from an assorted chain of luxury hotels, resorts, premium airline booking, and premium customized travel packages.

## Main Focus (Problem Statement)

Our client wanted to improve their hotel and package experiences. After understanding their problem, we introduced solutions like:

◀ Quality of development, Mobile App Development

Smooth UI/UX experience for end users ▶

◀ Multiple design reviews internally

Released the Hotels Booking Module in version 1.0 ▶

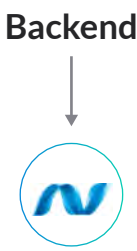

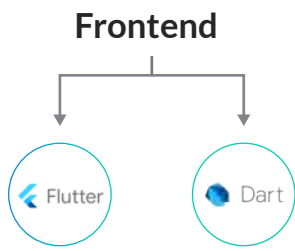

◀ Working on the Package Booking Module

## Key Offerings

- Quality Assurance & Product Testing
- UI & UX Consulting
- Mobile App Development & Web Development
- Product Engineering

## Technologies Used

## Solution Achievements

- ▶ We released the 1<sup>st</sup> mobile application and web in the 1<sup>st</sup> week of Dec 2022 with Hotel Booking Module.
- ▶ We enabled multiple currency support payment support using Razorpay.
- ▶ Launched their online Hotel and Package booking website.
- ▶ Introduced their online Hotel and Package booking Mobile app for iOS and Android.
- ▶ Admin console website.
